Deen Dayal Upadhyaya College

07/2019 - 06/2022

Delhi, India

### 12th CBSE

Govt. Boys Senior Secondary School

2019

## PROJECTS

### E-commerce Analytics Platform

At Nighwantech during my internship i am involved in buidling particular project which facilitates python,django rest framework with machine learning and data science technologies.

### Library Management

Developed a library management system in Java, incorporating features for book tracking, user management, and automated notifications. Utilized MySQL for database management and implemented an intuitive user interface.

### Recommendation System

Built a recommendation system using Python and WebAPI, leveraging collaborative filtering algorithms. Integrated seamlessly with the frontend to provide personalized suggestions. Deployed for scalable performance.
